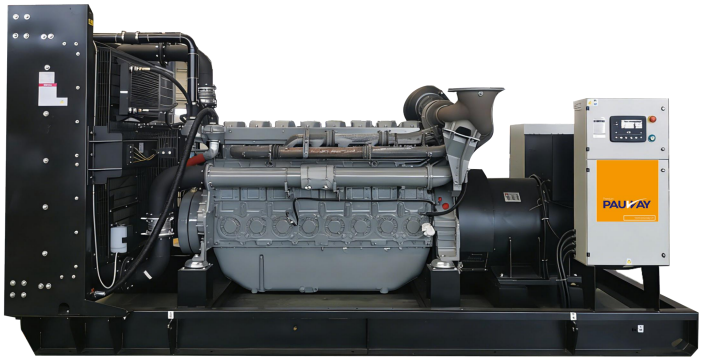
GENERATOR SET TECHNICAL SHEET

PAUWAY

Model: PWP777

400V | 50Hz | 1500RPM



ENGINE	Perkins 2806A-E18TTAG4	ALTERNATOR	Leroy-somer TAL A49 B
PRP PRIME POWER	565kW 706kVA	ESP STANDBY POWER	622kW 777kVA

Specifications are subject to change without notice.

GENERAL FEATURES

GB/T 2820（ISO 8528）

- 40℃ radiator, fans are driven by belt, with safety guard
- Alternator: single bearing, IP23, insulation class H
- Standard control panel
- Lead-acid batteries, rack and cables
- Vibration damper
- Dry type air filter, fuel filter & oil filter
- 24V charging alternator
- Exhaust bellows, elbows, flange & muffler
- User manual

Standard Configuration (open type)

Overall Dimensions：3500×1650×2150mm
Weight：4950kg

Soundproof Type

Overall Dimensions：5080×1850×2550mm
Weight：6300kg

Standard 20'ft GP container

Overall Dimensions：N/A
Weight：N/A

OPTIONS

- ◇ Different Voltage
- ◇ Charging
- ◇ Cylinder Liner Water Heater
- ◇ Condensate drain heater
- ◇ Soundproof type
- ◇ Rainproof type
- ◇ Trailer type
- ◇ Automatic transfer switch
- ◇ Paralleling system
- ◇ Switchgear
- ◇ Spare parts
- ◇ Auto oil replenishment system
- ◇ Daily fuel tank
- ◇ Base fuel tank

SALES PROMISES

- All products are brand-new, with each unit subject to strict factory inspection.
- Warranty: 1 year from commissioning completion, 1,000 cumulative operating hours, or 15 months from shipment to Pauway Tianjin Manufacturing Base (for unused units) — whichever occurs first.
- Extended warranty: Available upon inquiry; provided by Bowei or its authorized agents.

GENERATOR RATINGS

Voltage V	Hz	Phase	PF (COSΦ)	Standby Amps	Prime Ratings	Standby Ratings
440/254	50	3	0.8	1020	565kW	622kW
415/240	50	3	0.8	1082	565kW	622kW
400/230	50	3	0.8	1122	565kW	622kW
380/220	50	3	0.8	1181	565kW	622kW

I High voltage (optional): 6.3kV / 10.5kV (Special voltages customizable)

GENERATING SET DATA

Voltage setting range	≥±5%
Steady-state voltage deviation	≤±1%
Transient voltage deviation / 100% sudden reduction	≤20%
Transient voltage deviation / sudden increase	≤-15%
Voltage stabilization time / 100% sudden reduction (s)	≤4
Voltage stabilization time / sudden increase (s)	≤4
Frequency drop	≤3%
Steady-state frequency drop	≤0.5%
Transient frequency deviation / 100% sudden reduction	≤10%
Transient frequency deviation / sudden increase	≤-7%
Frequency recovery time / 100% sudden reduction (s)	≤3
Frequency stabilization time / sudden increase (s)	≤3

GENERATOR SET TECHNICAL SHEET

PAUWAY

Model： PWP777

400V | 50Hz | 1500RPM

ENGINE SPECIFICATION

2806A-E18TTAG4

Manufacturer / Model	Perkins 2806A-E18TTAG4	
Prime Power	623kW	
Standby Power	685kW	
Rated speed（r/min）	1500	
No.Cylinder	6	
Cylinder arrangement	L	
Stroke	4	
Air intake system	Turbocharged, air-to-air charge cooling	
Governor type	Electronic	
Bore and stroke	145x183mm	
Displacement	18.1L	
Compression ratio	14:1	
Fuel System		
Fuel consumption @ 100% (Prime Power) Load	195g/kWh	145L/h
Fuel consumption @ 75% (Prime Power) Load	191g/kWh	108L/h
Fuel consumption @ 50% (Prime Power) Load	196g/kWh	76L/h
Exhaust System		
Exhaust gas flow（L/S）	1983	
Exhaust temperature（℃）	461	
Max back pressure（kPa）	10	
Air Intake System		
Combustion air flow（L/S）	867	
Air flow required for radiator		
Air Intake System	Air filter & exhaust turbocharging	
Oil System		
Oil System	Oil filter、Oil pump、Oil dipstick	
Total oil capacity（L）	68	
Oil consumption（g/kWh）		
Cooling System		
Cooling Type	Water-cooled	
Intercooling method	Air-to-air	
Cooling System	Thermostat、Water pump、Radiator、Intercooler	
Coolant capacity(L)	109.5	
Max water temperature（℃）	97

GENERATOR SET TECHNICAL SHEET

PAUWAY

Model： PWP777

400V | 50Hz | 1500RPM

ALTERNATOR SPECIFICATION

Power（kVA）	750
Power（kW）	600
Alternator Efficiency(%)	94.8
Number of Bearing	1
Power Factor	0.8
Protection Class	IP23
Altitude	≤1000m
Exciter Type	Brushless exciting
Insulation Class/Temperature Rise	H/H
THF	＜2%

Industrial alternators meet the requirements of the relevant parts of the BS5000, VDE 0530, NEMA MG1-22, IEC34, CSA 22.2-100 and AS1359.

·Note: Generator parameters may vary depending on brand, voltage level and other factors

Control Functions

Main functions

4-line text display
Multi-language display
5 menu navigation keys
LCD alarm indication
Customizable startup screen, text and screen saver
Compatible with all expansion modules
Data logging
Built-in powerful PLC function
Emergency mode (all protections disabled)
Front panel editable parameters (with password protection)
Power-saving mode
3-phase generator detection and protection
3-phase mains detection and protection (PEC6.12 only)
ATS switch control (PEC6.12 only)
Unit current and power monitoring (kW, kvar, kVA, pf)
Mains current and power monitoring (kW, kvar, kVA, pf)
Overload protection
Overcurrent protection
Front panel manual control of circuit breaker closing/opening
Customizable fuel and start output ports for EFI engines

6 customizable output channels
4 customizable analog/digital input channels
Supports 0-10V or 4-20mA sensors
Speed detection via CAN, MPU and generator frequency
Built-in real-time clock (RTC)
Manual/automatic fuel pump control
Engine pre-heating and post-heating
Built-in powerful PLC function
Preset multiple start-stop cycles
Engine start/stop idle speed
Fuel level alarm
3 customizable maintenance reminders
Supports EFI engines, including Tier 4 engines
Parameter setting via free DSE software
IP65 protection rating for better water resistance
Can read parameters of other devices via CAN communication
Supports J1939-75 CAN communication
Shield EFI engine CAN alarms
1 set of backup protection parameters

GENERATOR SET TECHNICAL SHEET

Model： PWP777

400V | 50Hz | 1500RPM

PAUWAY HIGHLIGHT

/// Efficiency
- Low consumption
- High reliablity
- High quality power supply
- Long maintenance cycle

/// Support
- Provide global product warranty and technical

/// Standard
- The generator set is designed and manufactured in
- The engine used conforms to ISO 2008:9001 and
- The generator used conforms to NEMA MG1, EN and IEC standards

/// Rated power
- System Rating: power will vary with the change of alternator
- According to ISO 8528-5, the generator set conforms to G3
- According to ISO 8528-5, the generator set is allowed to use standby power

/// Performance assurance certification (PAC)
- Meeting ISO 8528-5 test transient response of genset
- Strong load carrying capacity at one time
- Product design, quality and performance
- All systems have been factory tested.

/// Provide full set of spare sparts
- Control panel
- Circuit breaker/Power distribution
- Fuel system
- Exhausting system
- Fuel connection with shut-off valve mounted on base
- Starting / charging system
- Mechanical / electrical driven radiator system
- Suitable model of AC alternator

/// Certification
- CE certificate
